

Corning Natural Gas Launches Responsive Website

The mission of Corning Natural Gas Corporation is to maximize customer satisfaction by providing competitively priced energy services safely, reliably and efficiently.

Corning, NY – June 9, 2015

Corning Natural Gas Corporation of Corning, NY has launched a new website designed by creative [web design firm](#), inCommand Technologies.

The website has been upgraded to feature a responsive design. Responsive web design (RWD) is a web design methodology that allows websites to be created for an optimal browsing experience whether the user is on a desktop computer, tablet or smartphone. A major aspect of the site is the use of inCommand Technologies' Content Management System, allowing for easy updates to all the content of the website.

About Corning Natural Gas Corporation

Corning Natural Gas Corporation's actions are guided by the following principles:

- That each customer is a valued and respected individual
- That the safety of their customers, employees and the general public must always come first
- That they provide improving value to their customers and shareholders through innovation and creativity in jobs, products and the services they provide
- That they take responsibility and ownership in the performance of their duties
- That they create a culture to stimulate excellence by all employees
- That they continue to be active in the community's growth and changes
