

Graham Corporation Launches New Responsive Website Design

Graham Corporation is a leading designer and manufacturer of vacuum and heat transfer equipment for energy markets and process industries worldwide. Customers rely on Graham for engineered-to-order equipment to meet their complex technical challenges. Graham analyzes the specific and unique needs of each customer to provide a thorough integration of product and process, delivering precise engineering answers.

Corning, NY – August 4, 2015

Graham Corporation of Batavia, NY has launched a new website designed by creative [web design firm](#), inCommand Technologies.

The website features an updated, modern look as well as a responsive design. Responsive web design (RWD) is a web design methodology that allows websites to be created for an optimal browsing experience whether the user is on a desktop computer, tablet or smartphone. A major aspect of the new site is the use of inCommand Technologies' Content Management System, allowing for easy updates to all the content of the website.

About Graham Corporation

The Graham brand name stands for:

- A heritage of vacuum system and heat transfer engineering expertise
- Dedication to outstanding product quality and reliability
- Commitment to placing the needs of customers first
- A promise to stand behind every product to ensure expectations are met and performance assured
- The determination to attract, develop and challenge employees to continually improve themselves and the company
